Date:

IQAC of the college contributes significantly and the following practices are institutionalized.

Practice 1: Feedback system:

The feedback is collected from academic and industrial experts who visit the institution, employers who come for recruitment, alumni who come to share their experience in the industry, students, and other stakeholders. Feedback is also collected from students, faculty, and parents. The feedback collection process was also provided online through the institutional website. The feedback received is scrutinized, data analyzed, and utilized for quality enhancement and improvement in various aspects such as curriculum enrichment, infrastructural facilities, and augmentation of research facilities.

Practice 2:

Internal Academic Audit of Departments

The IQAC initiated the Academic Audit of Departments primarily to take account of teaching-learning and extension processes in all disciplines and to institutionalize documentation and record-keeping of all academic and extension matters of every department. The internal academic audit is conducted by the IQAC every year for the fulfilment of IQAC-driven practices toward quality assurance. The process requires a self-regulated assessment of teaching-learning processes and a systematic management of documents of extension activities.
